WHAT IS *trego*

We, trego, offer an exceptional **live-cooking, catering experience** tailored to your needs.

Iacovos, Marios and Nektarios are three friends, who turned their passion for cooking into a service. We offer food menus, and packages suitable for everyone who would like to devour our recipes.

trego **aims** to create beautiful memories for the host and their guests. The host can **finally enjoy their time**, be present with their guests, and leave the hustle of the food to us. We **arrive at your location, set up, cook throughout the evening, and then clean up**. trego becomes part of the party, and you and your guests become part of trego.

We offer vegetarian and vegan options that are just as thoughtful and flavorful as the meat options.
